FROM MANNHEIM TO ANTWERP TO CASTROCARO TERME E TERRA DEL SOLE ... IN MUSIC!

The path that will bring our city to host the next 21 to 29 May, the "Music week" passes through the project "Cre – Action", which allowed us to collaborate with Italian and foreign partners active in music education, the active involvement of citizens through the arts and community policies.

The last project meeting in July 2011 in Mannheim, at the Pop Academy Baden - Württemberg had already led to new ideas and possibilities to organize a training event, with education and cultural activities in the name of the music.

Project partners met later in Antwerp, in November 2010, at the offices of De Veerman, the Belgian partner of the project: In preparation to the meeting, the municipality of Castrocaro Terme e Terra del Sole has organised working tables with local stakeholders, in order to share the project and sharing with them the activities for the realization of the final event, the "Music week" which will take place, as you know, in May 2011

The working tables have been divided into 3 groups:

NOVEMBER 2010: preparatory working tables for the Antwerp meeting

In preparation to the meeting to be held in Antwerp at the end of November, some work tables have been activated (12 and 16 November) with local operators in order to share the project and to prepare a draft programme for the final event, grouping different proposals by cultural associations and citizens of Castrocaro Terme and Terra del Sole, as well as by the project partners

28 NOVEMBER 2010: Antwerp Project meeting:

Cre – Action project partners:

- Comune di Castrocaro Terme e Terra del Sole
- Popakademie Baden-Württemberg
- De Veerman
- Sviluppo Progetti Scarl

met at the headquarters of De Veerman, discussing issues related to the active participation of citizens in cultural and social life of their territory through art, music and communication.

The partners are exploring the possible contaminations between music, technology and art, also attending to some laboratories, particularly to a workshop designed to introduce children of primary schools to music.

Among the most interesting themes that emerged in the course of the meeting there are the following:

- Contamination of music is important but there may be resistance, especially by the more traditional trainers
- Today, those who make music must have multiple skills in different fields
- To promote the active involvement of citizens with regard to the music used method of formation of an innovative nature, which for example are missing in the Italian

In the latter part of the meeting, on the basis of the draft proposal by the City of Castrocaro, the partners have worked together on a **program proposal for the event "Music week"** in particular the Popakademie Baden-Württemberg and De Veerman proposed their active participation in the project with a series of

musical and educational activities that will be included

Cre=Action

in the program.

DICEMBRE 2010 – APRILE 2011: tavoli di lavoro successivi all'incontro di Anversa

Successivamente al meeting di Anversa sono stati organizzati vari tavoli di lavoro tra gli attori interessati (o potenzialmente interessati) del Comune di Castrocaro Terme e Terra del Sole: gli incontri si sono svolti in maniera cadenzata in date successive: 13 Dicembre 2010, 21 Dicembre 2010, 11 Gennaio 2011, 8 febbraio 2011, 16 febbraio 2011.

1) Meeting to present the project CREACTION the following associations:

- committee of parents
- school teachers
- city band
- Castrocaro Classica Association
- I Paesani Association
- School Comprehensive Institute

2) Meetings with the school at various levels:

- With the Headmaster
- With the Headmaster and teachers of the 3 educational levels (kindergarten, primary, secondary)
- Only with the teachers after they are compared with each other in terms of interclass.

3) Feedback meeting and further definitions of the ideas that emerged from all the associations. It was therefore decided to create the Music week "as a container" to collect all the musical activities produced by the country and from school, exploring the possibility of linking with other initiatives that encourage the exploration of the connections between music, creative activities and communication, new technologies and to promote active citizenship and public education through music.

In subsequent meetings, in particular, the following issues have been defined:

- The roles and activities for organizing the event (even with the establishment of small working groups, one for each initiative in the program)
- The upgraded version of the program of the event
- Some events "teasing" to preview the event and its contents

Below we present some results of the activities, together with related initiatives promoted by associations active in the city and connected with the event "Castrocaro Terme and Terra del Sole City of Music"

During primary school assembly, together with Castrocaro Classica Association, a music promo has been set up: a contrabass student of the Summer Course "Marco Allegri" joined in the afternoon and the works about the Music Week have been presented, asking an e-mail address to the parents for sending information. Were collected 50 e-mail addresses.

The Territorial Center for Families of Castrocaro Terme and Terra del Sole proposes:

Story ... with music!

Animated readings for children 1-3 years
with musical games
conducted by Daniela Carlini G.

For every Friday from 4 February, from 16.30 to 17.30 at the Center for Families,
you will read, along with children accompanied by a parent,
one of the stories present at the Sognalibro.

At the end it will be possible to experiment together sound objects and small tools and play with them in a
spontaneous and free way, with the purpose of discovery and fun!

You can then, for those who want, to choose and borrow a little book among the many present!

Also parents, if they want, can choose a variety of texts for adults, on educational and psychological issues affecting their delicate task!

It 'an invitation to reading fun, growth ... going through music!

It requires a registration contribution of 5 euros

For more information: 320 1499966 (Daniela Carlini G.)

The initiative is part of the European Project Cre-Action, sponsored by the Municipality of Castrocaro, which aims to the final event of the realization of a week dedicated to the music.

This project has been funded with support from the European Commission.

The Territorial Center for Families of Castrocaro Terme, in collaboration with the School of Music "G. Rossini" proposes

MusicaGiocando!

Courses of education to the pleasure of play, make, express, for children 4-5 years

Led by Valentina Perini
(Teacher Propaedeutic Music Teacher)

It is a path to stimulate the child's natural predisposition to creativity with the use of multiple languages which can be integrated: the musical, narrative, gestural, motor and representative. Dances, group games, exploration of the self and of the outside, creation of simple choreography, rhythmic improvisations on the body (use of "gestures-sound" / body percussion), mimed songs, free expression and illustration of the body, Orff instruments (cymbals, xylophones, metallophones, maracas, etc.), which will be used by children to perform collective and small groups of songs, leading to the final realization of a real orchestra!

The laboratory includes five meetings to be held on Fridays from March 4 until April 1, from 17.00 to 18.00 at the Center for Families Castrocaro (atrium Kindergarten)

It requires registration contribution of 25 euros

For more information and registration: 320 1499966 (Daniela Carlini G.)

The initiative is part of the European Project Cre-Action, sponsored by the Municipality of Castrocaro, which aims to the final event of the realization of a week dedicated to the music.

The work table of the 7 March 2011 has special importance, since the Mayor of Castrocaro Terme and Terra del Sole pointed out that the European project Creaction is the first project for which the town of Castrocaro receives funding from the European Community. To achieve the planned timing of the project everybody will need to work in synergy and integrate so that the event had the best week of music can be successful also because it can be a good presentation for other projects.

Also during the meeting:

It presented the logo of the event made by the City Council of young people.

The press conference is scheduled for the presentation of the program '8 April at 11.00 am at the town hall.

This project has been funded with support from the European Commission.
